INDEPENDENT AUDITORS' REPORT

To the Board of Directors Creative Learning Academy Beaverton, Michigan July 19, 2006

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Creative Learning Academy (the Academy), as of and for the year ended June 30, 2006, which collectively comprise the Academy's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Creative Learning Academy's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Creative Learning Academy as of June 30, 2006 and the respective changes in financial position, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

544 Cherbourg Drive • Suite 200 • Lansing, Michigan 48917-5010 • (517) 323-7500 • Fax (517) 323-6346 • www.mcecpa.com

In accordance with *Government Auditing Standards*, we have also issued our report dated July 19, 2006, on our consideration of Creative Learning Academy's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages v through x and 19 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Creative Learning Academy's (Academy) annual financial report presents our discussion and analysis of the public school Academy's financial performance during the fiscal year that ended on June 30, 2006. Please read it in conjunction with the Academy's financial statements, which immediately follow this section.

Financial Highlights

- The Academy had an increase in the fund balance in the general fund of \$75,676 compared to a budgeted figure of \$18,765. This gives the Academy a general fund balance of \$162,586.
- The Academy retired \$10,941 in long-term debt during the year.

OVERVIEW OF THE FINANCIAL STATEMENTS

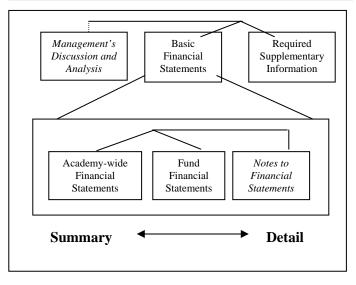

This annual report consists of three parts - management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds

of statements that present different views of the Academy:

- The first two statements are academy-wide *financial statements* that provide both short-term and long-term information about the Academy's overall financial status.
- The remaining statements are *fund* financial statements that focus on individual parts of the Academy, reporting the Academy's operations in more detail than the academy-wide statements.
- The governmental funds statements tell how basic services like regular and special education were financed in the short-term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary

Figure A-1
Organization of Creative Learning Academy's
Financial Report

information that further explains and supports the financial statements with a comparison of the Academy's budget for the year. Figure A-1 shows how the various parts of the annual report are arranged and related to one another.

Figure A-2 summarized the major features of the Academy's financial statements, including the portion of the Academy's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Academy-wide statements

The Academy-wide statements report information about the Academy as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the Academy's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two Academy-wide statements report the Academy's net assets and how they have changed. Net assets - the difference between the Academy's assets and liabilities, are one way to measure the Academy's financial health or position.

- > Over time, increases or decreases in the Academy's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the Academy, you need to consider additional non-financial factors such as changes in the Academy's enrollment, the condition of school buildings and other facilities, and the Academy's ability to be competitive with other public school academies and area school districts.

Governmental activities - The Academy's basic services are included here, such as regular and special education and administration. State foundation aid finances most of these activities.

Fund financial statements

The fund financial statements provide more detailed information about the Academy's funds, focusing on its more significant or "major" funds - not the Academy as a whole. Funds are accounting devices the Academy uses to keep track of specific sources of funding and spending on particular programs. The Academy has a general fund and agency fund.

- Governmental funds Most of the Academy's basic services are included in governmental funds which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Academy's programs. Because this information does not encompass the additional long-term focus of the Academy-wide statements, we provide additional information with the governmental funds statement that explains the relationship (or differences) between them.
- Fiduciary funds The Academy is the trustee, or fiduciary, for assets that belong to others. The Academy is responsible for ensuring that the assets reported in these funds are used only for their intended purposes, and only by those to whom the assets belong. We exclude these activities from the Academy-wide financial statements because the Academy cannot use these assets to finance operations.

Financial analysis of the Academy as a whole

Net assets - the Academy's combined net assets of \$190,579 improved by \$84,610 during the year. See Figures A-3 and A-4.

The total revenues increased by 57% to \$662,342. This is mainly due to a 53% increase in state aid foundation allowance. State aid foundation allowance included in revenue from state sources accounts for 84% of the Academy's revenue.

The total cost of instruction increased by 45% to \$316,757. Total support service increased by 35% to \$259,359. Both were primarily due to additional costs necessary to operate with a 53% increase in enrollment.

Financial analysis of the Academy's funds

The Academy's fund balance increased by \$75,676 to \$162,586. Principal and interest payments on long-term debt of \$12,213 were made from the general fund. Instruction and support service expenses increased significantly primarily as a result of rapid growth in enrollment.

General fund budgetary highlights

Over the course of the year, the Academy revised the general fund annual operating budget when necessary. Changes were made in both the revenue and expenditure which reflected anticipated increases in state aid and actual salary figures for staff.

While the Academy's final budget for the general fund anticipated revenues would exceed expenditures and other financing sources or uses by \$18,765, the actual results for the year showed revenues over expenditures of \$75,676.

Actual revenues were \$12,061 more than budgeted, due primarily to additional local revenues received.

Actual expenditures were \$44,850 under budget, due primarily to lower salary and health benefit costs.

Capital asset and debt administration

Capital assets

By the end of the year ended June 30, 2006, the Academy had invested \$44,156 in capital assets net of accumulated depreciation as summarized in Figure A-5. This amount represents a decrease of \$2,007 from the beginning of the year. Total depreciation expense for the year was \$2,007. More detailed information about capital assets can be found in Note 4 to the financial statements.

The Academy's capital assets are as follows:

Figure A-5 Creative Learning Academy's Capital Assets								
		Cost		Accumulated Net Book Depreciation Value				2005 Net
Modular classroom	\$	50,177	\$	6,021	\$	44,156	\$	46,163

Long-term debt

The Academy repaid principal on long-term debt of \$10,941 during 2006. The Academy did not borrow any additional debt during the year. See Note 6 for more information.

Factors bearing on the Academy's future

At the time these financial statements were prepared and audited, the Academy was aware of existing circumstances that could significantly affect its financial health in the future.

- The foundation allowance was increased \$210 (3%) to \$7,085 per pupil for the fiscal year 2007.
- The Academy has adopted a balanced budget for 2007.

The Board of Directors and management have taken appropriate steps to reduce cost. Considering the factors noted, necessary reductions touched every segment of the operation. Primary consideration was given to maintaining the educational integrity of the program.

Contacting the Academy's financial management

This financial report is designed to provide our students, parents and creditors with a general overview of the Academy's finances and to demonstrate the Academy's accountability for the money it receives. If you have questions about this report or need additional information, contact the Academy's Management Company, Choice Schools Associates, LLC at P.O. Box 141493, Grand Rapids, Michigan, 49514, phone (616) 785-8440.

CREATIVE LEARNING ACADEMY RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF THE GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2006

Net change in fund balance total governmental funds

\$ 75,676

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. In the statement of activities these costs are allocated over their estimated useful lives as depreciation.

Depreciation expense (2,007)

Repayments of principal on long-term debts are expenditures

in the governmental funds, but not in the statement of activities (where they are reductions of liabilities).

Principal repayment on note payable 10,941

Change in net assets of governmental activities

\$ 84,610

CREATIVE LEARNING ACADEMY STATEMENT OF FIDUCIARY ASSETS AND LIABILITIES FIDUCIARY FUND JUNE 30, 2006

	Agend	cy fund
ASSETS:		
Cash	<u>\$</u>	929
LIABILITIES:		
Due to CLASS organization	\$	929

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Creative Learning Academy have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Academy's accounting policies are described below.

A. Reporting Entity

The Creative Learning Academy (the "Academy") is a public school academy as part of the Michigan Public School System under Public Act No. 362 of 1993. Saginaw Valley State University is the authorizing governing body for the Academy and has contracted with the Academy to charter the public school through June 2011. The Academy's Board of Directors is approved by the authorizing body and is authorized to manage the Academy and the property and affairs of the Academy. The Academy receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. However, the Academy is not included in any other governmental reporting entity as defined by accounting principles generally accepted in the United States of America. The Academy's reporting entity does not contain any component units as defined in Governmental Accounting Standards Board Statements No. 14 and 39.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the Academy. For the most part, the effect of interfund activity has been removed from these statements. The government-wide financial statements categorize primary activities as either governmental or business type. All of the Academy's activities are classified as governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges paid by recipients who purchase, use or directly benefit from goods or services by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. State Foundation Aid, certain revenue from the intermediate school district and other unrestricted items are not included as program revenues but instead as *general revenues*.

In the government-wide statement of net assets, the governmental activities column (a) is presented on a consolidated basis, (b) and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Academy's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and fund financial statements (Concluded)

The Academy first utilizes restricted resources to finance qualifying activities.

The government-wide statement of activities reports both the gross and net cost of each of the Academy's functions. The functions are also supported by general government revenues (State Foundation Aid, certain intergovernmental revenues, investment income and other revenue). The statement of activities reduces gross expenses by related program revenues and operating grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The net costs (by function) are normally covered by general revenue (State Foundation Aid, intermediate district sources, interest income and other revenues.)

The Academy does not allocate indirect costs.

This government-wide focus is more on the sustainability of the Academy as an entity and the change in the Academy's net assets resulting from the current year's activities.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from government-wide financial statements.

Governmental Funds - Governmental funds are those funds through which most Academy functions typically are financed. The acquisition, use and balances of the Academy's expendable financial resources and the related current liabilities are accounted for through governmental funds.

The Academy reports the following <u>major</u> governmental funds:

The *general fund* is the Academy's primary operating fund. It accounts for all financial resources of the Academy, except those required to be accounted for in another fund.

Fiduciary funds account for assets held by the Academy in a trustee capacity or as an agent on behalf of others. Fiduciary funds are not included in the government - wide statements.

The *agency fund* is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for assets that the Academy holds for others in an agency capacity.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Basis of Presentation

Accrual Method

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

Modified Accrual Method

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Academy considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

State and federal aid and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period when received within 60 days of year end. All other revenue items are considered to be measurable and available only when cash is received by the Academy.

State Revenue

The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The Foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to the Academy based on information supplied by the Academy. For the year ended June 30, 2006, the foundation allowance was based on pupil membership counts taken in February and September of 2005.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Concluded)

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills and an allocated portion of state sales and other taxes. The State revenue is recognized during the foundation period and is funded through payments from October 2005 to August 2006. Thus, the unpaid portion at June 30th is reported as due from other governmental units.

The Academy also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Categorical funds received, which are not expended by the close of the fiscal year are recorded as deferred revenue.

D. Other Accounting Policies

1. Cash and equivalents include amounts in demand deposits accounts.

The Academy reports its investments in accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools and No. 40 Deposits and Investment Risk Disclosures. Under these standards, certain investments are valued at fair value as determined by quoted market prices, or by estimated fair values when quoted market prices are not available. The standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the Academy intend to hold the investment until maturity.

State statutes authorize the Academy to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase. The Academy is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Other Accounting Policies (Continued)

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All receivables, are shown net of an allowance for uncollectibles.

3. Prepaid expenditures

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenditures.

4. Capital Assets

Capital assets purchased or acquired are capitalized at historical cost or estimated historical cost. Donated fixed assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets.

The Academy's capitalization policy is to capitalize individual amounts exceeding \$5,000.

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives as follows:

Modular classroom

25 years

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

D. Other Accounting Policies (Concluded)

5. Long-term Obligation

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net assets.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as debt issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether of not withheld from the actual debt proceeds received, are reported as debt service expenditures.

6. Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

7. Fund Balance

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general fund. Annual appropriations lapse at year end.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Concluded)

The Academy follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Chief Administrative Officer submits to the Board of Directors a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them. The level of control for the budgets is at the functional level as set forth and presented as required supplementary information.
- 2. Prior to July 1, the budget is legally adopted by Board resolution pursuant to the Uniform Budgeting and Accounting Act (1968 PA 2). The Act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will be less than anticipated or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated. Violations, if any, in the general fund are noted in the required supplementary information section.
- 3. The Chief Administrative Officer is authorized to transfer budgeted amounts between major expenditure functions within any fund; however, these transfers and any revisions that alter the total expenditures of any fund must be approved by the Board.
- 4. Formal budgetary integration is employed as a management control device during the year for the general fund.
- 5. The budget was amended during the year with supplemental appropriations, the last one approved prior to June 30, 2006. The Academy does not consider these amendments to be significant.

Excess of expenditures over appropriations in budgeted funds - During the year, the Acadmey incurred expenditures in certain budgeted funds which were in excess of the amounts appropriated as follows:

D 1 15		Budget		Actual		udget	
Budgeted item	app	appropriation		appropriation expenditure		<u>variable</u>	
General fund - basic programs	\$	227,889	\$	228,738	\$	(849)	
General fund - community services		266		344		(78)	

NOTE 3 - CASH DEPOSITS - CREDIT RISK

Cash is held in the name of the Academy. These deposits are subject to custodial credit risk. This is the risk that in the event of a bank failure, the Academy's deposits may not be returned to it. The Academy minimizes custodial credit risk on deposits by assessing the credit worthiness of the individual institutions in which it deposits funds. The amount of deposits with each institution is assessed to determine the level of risk it may pose to the Academy in relation to deposits in excess of insured amounts. As of June 30, 2006, none of the Academy's bank balance of approximately \$79,000 was exposed to custodial credit risk because it was not covered by federal depository insurance and was not collateralized.

NOTE 4 - CAPITAL ASSETS

A summary of changes in the Academy's capital assets follows:

	Balance July 1, 2005 Additions Deletions			Balance June 30, 2006			
Governmental activities: Capital assets, being depreciated: Modular classroom	\$	50,177	\$		\$	\$	50,177
Accumulated depreciation: Modular classroom		4,014		2,007			6,021
Net capital assets being depreciated		46,163		2,007			44,156
Net governmental capital assets	\$	46,163	\$	2,007	\$	\$	44,156

Depreciation for the fiscal year ended June 30, 2006 amounted to \$2,007. The Academy allocates 100% of depreciation to the instruction activity.

NOTE 5 - NOTE PAYABLE

At June 30, 2006, the Academy has \$5,145 outstanding from a state aid anticipation note dated August 20, 2005. The note, which has an interest rate of 6.26%, matures July 20, 2006. The note is secured by future state school aid payments.

Balance			Balance
June 30, 2005	Additions	Payments	June 30, 2006
\$ -	\$ 50,000	\$ 44,855	\$ 5,145

NOTE 6 - LONG-TERM DEBT

The Academy issued a note payable to acquire a modular classroom. The note is due in monthly installments of \$913 through February 2008, including interest at 5.5%.

The following is a summary of long-term obligation transactions of the Academy for the year ended June 30, 2006:

	Note payable	
Long-term debt, July 1, 2005	\$	27,104
Deductions: Principal payments		10,941
Balance, June 30, 2006		16,163
Less current portion		10,359
Total due after one year	\$	5,804

NOTE 6 - LONG-TERM DEBT (Concluded)

The annual requirements to amortize long-term debt outstanding, including estimated interest of \$692 are as follows:

Year ending June 30,	Principal	Interest	Total	
2007	\$ 10,359	\$ 592	\$ 10,951	
2008	5,804	100	5,904	
	\$ 16,163	\$ 692	\$ 16,855	

NOTE 7 - BUILDING LEASE

The Academy leases a building for the use of classrooms under a non-cancelable operating lease until August 2007. The monthly lease payment is based on the February and September 2005 pupil count for the current fiscal year. The building lease expense for the year ended June 30, 2006 was approximately \$24,000.

Future minimum rental payments are as follows:

Year ending June 30	
2007 2008	\$ 24,420 4,180
	\$ 28,600

NOTE 8 - OVERSIGHT FEES

The Academy pays an administrative oversight fee of 3% of its state school aid discretionary and Proposal A obligation payments to the Saginaw Valley State University Board of Trustees, as set forth by contract, to reimburse the University Board for the cost of execution of its oversight responsibilities. These oversight responsibilities include the monitoring of the Academy's compliance with the terms and conditions of the contract, and the review of its audited financial statements and periodic reports. During the year ended June 30, 2006, the Academy incurred expense of approximately \$19,000 for oversight fees.

NOTE 9 - MANAGEMENT AGREEMENT

The Academy has entered into a six year (through June 2011) management agreement with Choice Schools Associates, LLC (Choice Schools) for operations of the Academy. Under the terms of the management agreement, Choice Schools' compensation for operating the Academy is approximately \$76,000 for the fiscal year 2006.

NOTE 10 - PURCHASED SERVICES

The Academy leases all employee services from Choice Schools. Salaries, retirement, social security, health insurance, and unemployment taxes are the responsibility of Choice Schools.

NOTE 11 - RISK MANAGEMENT

The Academy is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. To minimize the risk, the Academy carries commercial insurance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Creative Learning Academy Beaverton, Michigan July 19, 2006

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Creative Learning Academy as of and for the year ended June 30, 2006, which collectively comprise Creative Learning Academy's basic financial statements of the Academy and have issued our report thereon dated July 19, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Creative Learning Academy's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Board of Directors Creative Learning Academy Beaverton, Michigan

July 19, 2006

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Creative Learning Academy's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Creative Learning Academy in a separate letter dated July 19, 2006.

This report is intended solely for the information and use of the Board of Directors, management, U.S. Department of Education and the Michigan Department of Education and is not intended to be and should not be used by anyone other than these specified parties.

Walter P. Maner, Jr. (1921-2004) Floyd L. Costerisan Leon A. Ellis (1933-1988)

July 19, 2006

To the Board of Directors Creative Learning Academy Beaverton, Michigan 48612

In planning and performing our audit of the financial statements of Creative Learning Academy for the year ended June 30, 2006, we considered the Academy's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control.

However, during our audit we became aware of certain matters that are opportunities for strengthening internal controls and operating efficiency. The comments and suggestions regarding those matters follow. This letter does not affect our report dated July 19, 2006, on the financial statements of Creative Learning Academy

Initial Listing of Cash Receipts

Choice School Associates requires that an initial listing of cash receipts be prepared and compared to the bank deposit and initialed by the Principal. During our review of cash receipts we noted that the listing was not being signed off as reviewed. Management should consider having one employee, preferably one who does not have accounting responsibilities, open the mail, make a control list of all receipts, restrictively endorse all items received as "for deposit only", and make copies of the checks received. The receipts should go to the Office Professional for processing and be deposited on a timely basis. A Choice School Associate employee should compare the initial listing of cash receipts to the deposit slip and record in the general ledger. We also noted that cash receipts were not numbered. The Academy should consider using pre-numbered cash receipts.

2

Approval to Pay Invoices

Choice Schools approves when to pay invoices but the list of approved invoices is not retained or the approval is not documented. We recommend that the list of invoices to be paid be retained with evidence of approval to pay, or maintain a monthly internal control checklist to sign off that approval was given. Management could also consider approving each invoice to be paid with a sign off on the invoice.

Federal Grants

Currently federal expenditures are not kept in their own federal expenditure accounts. All federal grant expenditures are required by law to have their own accounts to avoid commingling funds with non-federal expenditures. We suggest setting up individual accounts to track federal expenditures separately.

Bank Reconciliations

Currently the Office Professional receives the unopened bank statement and cancelled checks and prepares the bank reconciliation. To strengthen internal control, the unopened bank statement should go a person independent of the bank reconciliation process to review the cancelled checks for payee, endorsement, signature, amount and potential improprieties. This person should initial the statement as evidence of review.

3

Budget Enforcement by the Michigan Department of Education

The Michigan Department of Education is changing their enforcement and monitoring of budget violations. They are currently focusing on total expenditures violations that exceed 1% of the total expenditures budget and total other financing uses that exceed 1% of the total other financing uses budget. The Department of Education will be issuing letters to school board presidents, the superintendent and the chief business official when they identify these types of violations.

Currently identified violations of the Act include, but are not limited to:

- Incurring expenditures in excess of the appropriation approved by the school board (Overspending your budget by line item).
- Ending the fiscal year with a deficit (negative fund balance).
- Adopting a budget that, when implemented, would put the Academy in a deficit.

The Department is also currently reviewing their interpretation of Section 17(2). This would be a situation where a Academy's actual revenues were less than budgeted revenues and, at the same time, depleted the Academy fund balance, beyond what was approved in total by the school board.

We recommend you continue to review your current budget amendments during the year. There will be situations where there continue to be budget violations as disclosed in footnote 2 subsection 5 of the financial statements. While there may be technical violations of the act we believe the Academy's current budget procedures are adequate.

4

Cash Management - Federal Awards

The Michigan Department of Education has recently been notified that it, along with all other states, has misinterpreted the advance provision of the Cash Management Improvement Act (CMIA). The United States Department of Education started monitoring and auditing CMIA compliance and is notifying sub-recipients that advances are limited to three days cash needs. In other words, funds must be spent by the Academy within 72 hours of being drawn down from the USDE GAPS system. Because of this new awareness, the department will no longer allow 30-day cash advances for ongoing programs during fiscal year 2006/2007. Thirty-day cash advances may be permitted for new one-time federal grant programs at the discretion of program management.

We recommend the Academy request funds on a reimbursement basis in order to ensure compliance with the revised cash management interpretation.

New Auditing Standards

Recently, 10 new auditing standards have been released and will become effective over the Academy's next two fiscal years. In reviewing the new standards, we do not believe, for the most part, they will have a significant impact on our overall audit approach. However, two of the new standards may directly impact the Academy beginning with the June 30, 2007 year-end.

One of the new standards revises the dating of the auditors' report. Under the old standards, the auditors' report was dated the last day of fieldwork. The new standards define the date as the date adequate audit evidence is obtained. Adequate audit evidence is now being interpreted as including the client's approval of draft financial statements. Although the dating of the report may seem trivial to non-auditors, it does have an impact on auditors' subsequent events work (June 30 through date of the auditors' report). The impact to the Academy could be if there was a long period of time needed to resolve certain open issues. This would extend the dating of the auditors' report and increase the amount of work we need to complete our subsequent events work.

Another standard effective for the June 30, 2007 year-end is related to our communications with the client. The new standard retained the definition of a "material weakness" and added two new categories of deficiencies "significant deficiency" and "control deficiency". Certain situations were included as examples of strong indicators of significant deficiencies and possibly material weaknesses. One of the situations is the client is unable to write financial statements, including the footnotes, in accordance with generally accepted accounting principles. Historically, we have prepared the financial statements and footnotes for the Academy. We will have to evaluate the Academy's ability to produce appropriate financial statements and footnotes and, accordingly, if any control deficiencies exists.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Academy personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

Walter P. Maner, Jr. (1921-2004) Floyd L. Costerisan Leon A. Ellis (1933-1988)

July 19, 2006

To the Board of Directors Creative Learning Academy Beaverton, Michigan

We have audited the financial statements of Creative Learning Academy for the year ended June 30, 2006, and have issued our report thereon dated July 19, 2006. Professional standards require that we provide you with the following information related to our audit.

1. Our Responsibility under Auditing Standards Generally Accepted in the United States of America

As stated in our engagement letter dated March 21, 2006, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance about whether the financial statements are free of material misstatement and are fairly presented in accordance with accounting principles generally accepted in the United States of America. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

As part of our audit, we considered the internal control of Creative Learning Academy. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

As part of obtaining reasonable assurance about whether Creative Learning Academy's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of law, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit.

2. Significant Accounting Policies

Management has the responsibility for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Creative Learning Academy are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2006. We noted no transactions entered into by Creative Learning Academy during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

2

3. <u>Accounting Estimates</u>

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no significant estimates to report.

4. Audit Adjustments

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. An audit adjustment may or may not indicate matters that could have a significant effect on the Creative Learning Academy's financial reporting process (that is, cause future financial statements to be materially misstated). In our judgment, none of the adjustments we proposed, whether recorded or unrecorded by the Creative Learning Academy, either individually or in the aggregate, indicate matters that could have a significant effect on the Academy's financial reporting process.

5. <u>Disagreements with Management</u>

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

6. Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

7. <u>Issues Discussed Prior to Retention of Independent Auditors</u>

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Creative Learning Academy's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

8. Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing our audit.

This information is intended solely for the use of the Board of Directors and management of Creative Learning Academy and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Maner, Costerisan + Ellis, P.C.
